

The Federal Communications Commission

Dear The Federal Communications Commission,

I'm a retired senior on a low fixed income and I'm urging you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I know that this proposal could make my current service unaffordable.

I make literally no long distance calls and under the flat fee proposal you are considering, I will have to pay the same as people or businesses that make many calls. I have to keep my expenses low and shouldn't have to bear the USF rate as businesses who profit from the service. That would be extremely unfair!

I only use my wireless phone for safety and security. Businesses should pay their fair share and I shouldn't have to subsidize them out of my limited income.

Please reject the proposal to move the USF collection system to a flat-fee.

Thank you for your attention to this request.

Respectfully,

Shirley Marchant 1550 Rimpau Av #181 Corona, CA 92881

Sincerely,

Shirley Marchant
